**FONTAINE**  
FIFTH WHEEL

CONNECT YOUR BUSINESS WITH FONTAINE®

# 3-sensor system

The first proven 3-sensor fifthwheel system, this unit assists the driver during the coupling procedure, advises when the trailer is correctly coupled and continuously monitors the connection.

**1. Top plate - senses trailer on fifthwheel**

**2. Kingpin - senses kingpin inside mechanism**

**3. Handle - senses handle fully closed**

**Green light only when coupling completed correctly**

- Suitable for all current Fontaine fifthwheels
- ADR approved
- Control box factory-mounted under fifthwheel - fully waterproof
- Display can be mounted in any truck dashboard with audible and visual signals
- Warns of any change or external interference
- 3 years of development and successful field trials
- Supported by diagnostic logic
